Dear Sir/Madam,

The 5th Annual "Hyacks in Motion" 3km Family Run/ Walk & Health Fair through beautiful Queen's Park in New Westminster will be taking place on Saturday, May 5th, 2018 in support of Health & Physical Literacy Education in the New Westminster School District.

By hosting Hyacks in Motion (HiM) we will be working to bring together businesses, community, schools, students, and families to build a more active and healthy community while promoting health and physical literacy education. To accomplish our fundraising goal of \$5000 we need your help and are requesting merchandise, services, gift certificates, health fair participation, and/or monetary donations.

The students of the Sport Leadership Cohort of New Westminster Secondary School would like to continue with the HiM tradition and show their learning to our community. The initial fundraising efforts of HiM would like to support the Sport Leadership Cohort's leadership activities such as our snowshoe trip to Mt. Seymour and our canoe/ camping trip to Widgeon Creek. If we are successful in our fundraising efforts, we would like to use the funds to support the larger needs of students learning in our district. This would be in the form of field trip opportunities, access to health promotion equipment and technology, access to nutritious food within our school district, and support of extra-curricular programming for students. The New Westminster School District is home to over 6000 students in our community, so these funds have the ability to improve the health and physical literacy experiences we can offer.

To show our appreciation, donors and health fair participants may receive recognition in the following ways for their contributions to "Hyacks in Motion 2018":

- Acknowledgement in the media & event poster
- Your company name will be displayed during the event
- Potential for t-shirt advertising
- Event Day Announcements
- Post event promotions during health fair
- Ability to add promotional products into participants' swag bags

Please visit our website <http://www.hyacksinmotion.com> or email us at coatway@sd40.bc.ca for information and/or tickets to join us for this wonderful event in support of Health & Physical Literacy Education in New Westminster. Thank you for your support and we look forward to the possibility of working with you in our pursuit of a healthier community.

Working to promote and improve Health & Physical Literacy through education in our community is our goal!

Sincerely,

Chad Oatway
Physical Health, Sport Leadership Teacher & Coach
